

Product Information:
GOLDEN FILM 80W-90
CLASSIC GEAR OIL

Description

Golden Film 80W-90 is a mineral oil based gear lubricant designed for use in a variety of automotive gearboxes and axles, where an extreme pressure (EP) product is required. This product provides effective component protection under normal work loads and shock load conditions. The oil is stable at high temperatures and is treated with additives to prevent rust, corrosion and foam formation.

Applications

Golden Film 80W-90 is ideal for gearboxes and axles fitted to vehicles built in the 1960s, 1970s, 1980s and 1990s, where an API GL4, API GL5, SAE 80W-90 or SAE 90 is specified.

Note: This product should not be used in earlier designs where there may be phosphor-bronze components present.

Performance Level

API GL4, API GL5

Physical Characteristics

Viscosity @ 100°C, cSt.	15.71
Viscosity @ 40°C, cSt.	156.6
Viscosity Index	103
Flash Point (Closed) °C	168
Pour Point °C	-30

Figures based on average production values.

Part No.s: LOE005, LOE025, LOE205
